MEMORANDUM FOR: Commander J. M. Larsen, ONI
SUBJECT : Air Force Standard Indexing System

1. You recall that when I visited your center awhile ago we discussed the Air Force standard indexing system. I told you that I would explore the feasibility of our adapting to that.

2. The answer is in the negative for the reasons which will appear clearly to you, I am sure, from the attached memorandum.

3. Since this is my only copy, I would appreciate its return when you have finished using it.
